

## Timer - Enabled Hepa Filter Air Purifier for Home Use

### Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: KJ050GE-C7
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 30000 PCS/MONTH

### Product Specification

- Name: Smart Air Purifier
- Color: White
- Control: Touch Control Panel
- Voltage (V): 100-240V 50/60 Hz
- Type: Hepa-Filter
- OEM&ODM: OK
- Highlight: **benzene Hepa Filter Air Purifier, formaldehyde Hepa Filter Air Purifier, Small air purifier uvc**

Our Product Introduction

for more products please visit us on [envi-tek.com](http://envi-tek.com)

It's compact, fitting easily on a bedside table or shelf in 6 - 10 square - meter rooms. With a combo of a top - notch Hepa filter and carbon , it catches dust, pollen, and tiny particles, and zaps odors and harmful gases like formaldehyde . Run it in a newly - ren

ovated room for a week, and the paint smell will be gone.

Using it is simple. There are 3 speed settings, a quiet sleep mode (max 55dB(A)), and a 2-8 hour timer.

It also has a filter-changing reminder, a soft night light, and an option for neg

filtration technology in air purifiers. The Hepa filter is composed of very fine organic fibers interwoven together, has a strong ability to capture fine particles, has tiny pores, a large adsorption capacity, and a high purification efficiency.

The working principle of the Hepa filter

r is that when the air containing dust particles passes through the Hepa filter, the suspended particles in the air will be blocked outside, thereby playing the role of filtering and purifying the air. It can effectively filter particles of 0.3 microns in the air. The filtering effect on particles  $\geq 0.3$ .

3µm can reach 99.9%, and the filtering effect on PM0.1 particles can reach 99.9%.

The higher the grade of the Hepa filter, the better the filtering effect. Generally, air purifiers on the market use filter elements of grades H12 and H13. Hepa filters can also be combined

with other filtration technologies, such as activated carbon filtration, to improve the performance of the air purifier.

**KJ050-GE-C7 HEPA-type filter**

**Pre-filter** block large airborne pollutants **HEPA filter** kills more than 99.5% of tiny airborne pollutants **Act**
